

MIA BARTHEL

Professional Experience

The Ferguson Group LLC, Washington, DC (January 2023 – Present)

Grants Analyst/Researcher

Overview.— Mia supports the firm’s initiatives by identifying and securing grant funding for critical projects across the country. In collaboration with the Senior Grants Team, she works alongside TFG partners in all aspects of the federal funding process. Mia’s contributions are critical to helping the firm achieve objective such as providing needed water, wastewater and transportation infrastructure; supporting public safety and health efforts; protecting waterways and endangered species; addressing various environmental issues; rejuvenating neglected industrial areas into sustainable, vibrant economic communities; developing economic revitalization plans for blighted cities or neighborhoods; and aiding communities with disasters response and recovery.

The Jesse Tree of Idaho, Idaho, Boise (2021-2022)

Grant Writer, AmeriCorps VISTA

Mia was directly responsible for the research, development and submission of over 100 grants; she wrote countless proposals and raised over \$2 million in funding for eviction and homelessness prevention initiatives. She worked with over 40 of the Nonprofit’s federal government, foundation and corporate sponsors. In addition, Mia led and executed the implementation of new software and tracking systems for the organizations grant life cycle process.

International Rescue Committee, Idaho, Boise (2020-2021)

Mobility and Transportation Intern

Mia was responsible for arranging and carrying out 1 on 1 meetings with clients for bus training, resource allocation and overall needs from a variety of sources; she assisted refugees arriving in Idaho to recover, adjust, integrate and regain control of their lives.

Idaho Botanical Garden, Idaho, Boise (August 2019 – October 2019)

Sustainability Consultant Intern

As the nonprofit’s first Sustainability Consultant, Mia handled all aspects of developing project goals, objectives and strategies. She created a Carbon Footprint Report and Guide for Future Sustainable Practices. In collaboration with community professionals, she built frame works for zero-waste operations and assisted staff with maintaining compliance.
