Overview of Federal Funding

WHAT FUNDING IS AVAILABLE AND WHY CONSIDER IT?

Federal Grants

- Federal outlays for grants to states and local governments have grown from \$16.4 billion in 1940 to \$734.9 billion in 2020
- In January 2022, there were approximately 2,073 federal assistance programs authorized by Congress

Purpose of Federal Grants

To secure funding for a specific project or to address a specific problem that *directly assists or benefits the public in such areas as education, health, public safety, public welfare, and public works.*

Types of Grants

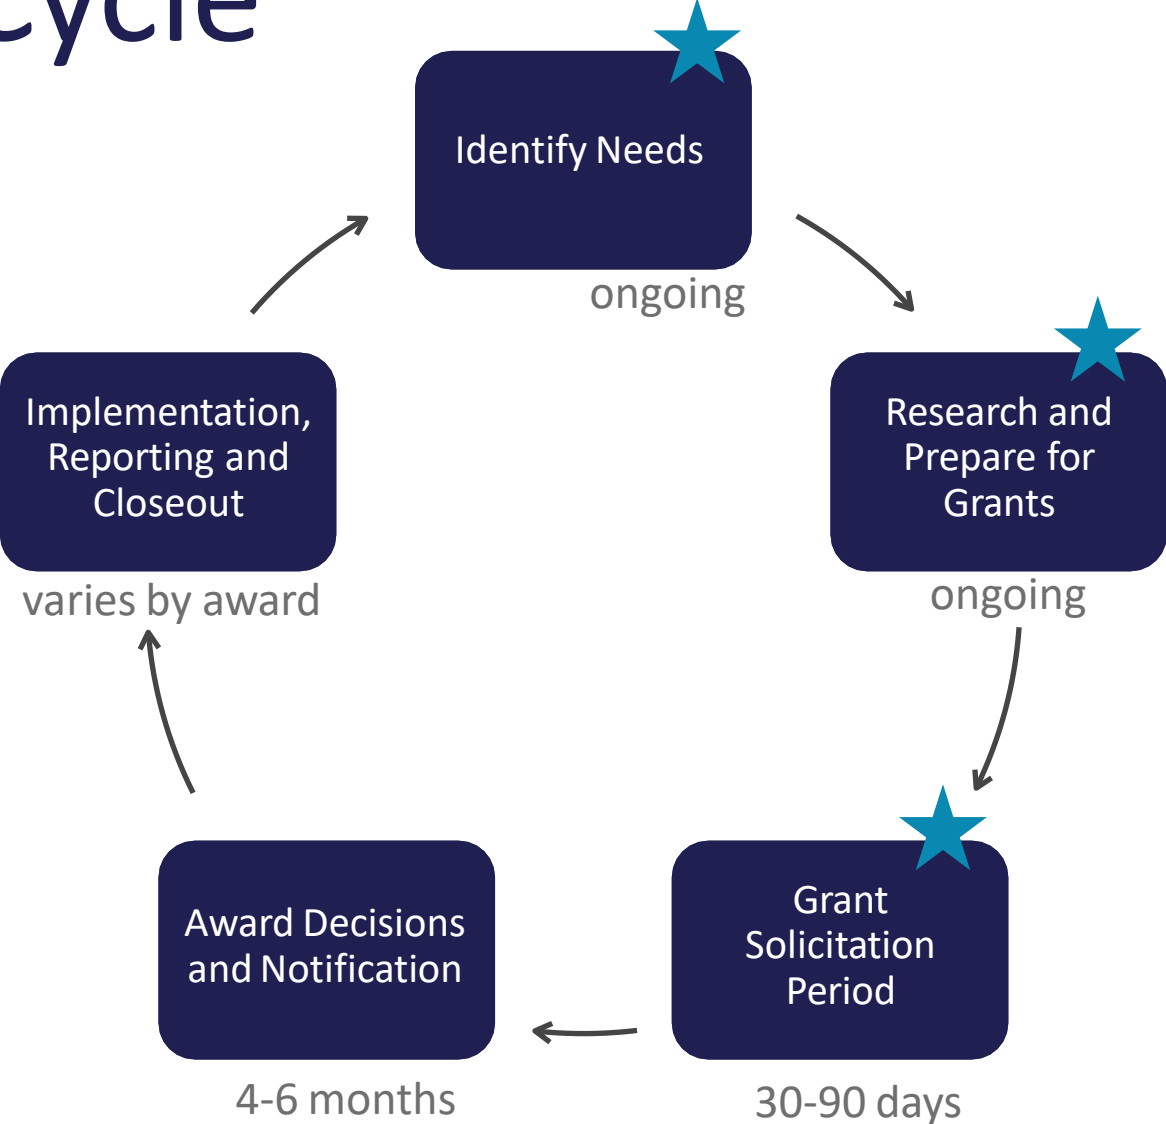

• **Discretionary or Competitive Grants**

- Request for funding for a fixed period of time for a specific project. The funds are used to carry out goals and activities to support a public purpose.
- **Formula, Entitlement, and Block Grants**
 - Pre-determined amount of funding provided to eligible recipients to offset the local costs incurred when carrying out a federal requirement. These grants are typically non-competitive but do require applications.
 - Often directed to larger units of local government.

What do grants generally fund?

- General Purpose
- Equipment
- Operating
- Planning Grant
- Research
- Training
- Capacity Building
- Public Outreach and Engagement
- Conferences
- Construction and Renovation

Additional Information

Agency Name: Department of Homeland Security - FEMA

Description:

The Department of Homeland Security (DHS) Federal Emergency Management Agency's (FEMA) Grants Programs Directorate is responsible for the implementation and administrations of the Assistance to Firefighters Grant (AFG) Programs. The purpose of the AFG Program is to enhance the safety of the public and firefighters with respect to fire and fire-related hazards. The Grants Programs Directorate administers the Fire Prevention and Safety (FP&S) grants as part of the AFG Program. FP&S offers grants to support activities in two categories: (1) activities designed to reach high-risk target groups and mitigate incidences of death and injuries caused by fire and fire-related hazards ("Fire Prevention and Safety Activity") and (2) research and development activities aimed at improving firefighter safety ("Firefighter Safety Research and Development Activity"). The program guidance document provides potential applicants with the details of the requirements, processing, and evaluation of an application for financial assistance for both of these activity areas.

Grant applications are processed in FEMA GO, not Grants.gov; refer to the NOFO document in the "Related Documents" section of this posting for details on how to apply.
